Indore, Madhya Pradesh - India

Full Stack Developer | Software Development Engineer (SDE)

EDUCATION

Institute of Engineering and Technology, Devi Ahilya Vishwavidyalaya

August 2023 - June 2027

Bachelor of Engineering - Computer Science Engineering - CGPA: 6.5

Indore, India

O.P. Jindal School

April 2022

12th Standard - Senior Secondary School (2022): 71.8%

Ramgarh, India

D.A.V Public School

April 2020

10th Standard - Higher Secondary School (2020): 70.4%

Ramgarh, India

PROJECTS

Coding Platform

| [Github](#)

Tech Stack: Express, NodeJs, MongoDB, React

- Built a full-stack coding platform for practicing and solving DSA problems, with problem creation, submission, and automated evaluation.
- Implemented secure user authentication and authorization for personalized, session-based access.
- Designed problem-creation module supporting structured descriptions and constraints.
- Developed automated code submission and test-case validation pipeline to evaluate user solutions in real time.
- Added real-time problem-count tracking to improve user navigation and engagement.

VizuCode - LeetCode Visualizer

| [Github](#) | [Live](#)

Tech Stack: React, JavaScript, Node.js, Express, JWT

- Built an interactive visualizer for 300+ LeetCode questions across 16 categories, with step-by-step algorithm traces synced to C++/Java source code.
- Designed 10 reusable visualization templates (binary search, arrays, trees/graphs, DP grids, heaps, linked lists) with transport controls and tag-synced code highlighting.
- Developed a REST API with JWT authentication and per-user progress tracking; frontend falls back to local data if the API is unavailable.
- Hardened the API with rate limiting, input validation, and security headers; added persisted light/dark theming.

SKILLS

Languages: C++, JavaScript, Python

Frameworks & Libraries: Node.js, Express.js, React

Databases: MySQL, MongoDB

Cloud: AWS, Oracle Cloud Infrastructure (OCI)

Core CS: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks, High-Level Design (HLD), REST API, JWT Authentication

CERTIFICATES AND ACHIEVEMENTS

- Oracle Cloud Infrastructure Architect Associate (2026) — Oracle
- Ultimate AWS Certified Cloud Practitioner CLF-Co2 2026 — Udemy, Stephane Maarek
- The Complete Python Bootcamp — Udemy, Jose Portilla
- Namaste DSA — NamasteDev, Akshay Saini
- 300+ DSA questions — LeetCode, GeeksforGeeks, etc.
